

MVISD Remote Dyslexia Instruction 20-21

If your child has been identified with dyslexia and the committee has determined that your child is in need of standard protocol dyslexia instruction, you will be contacted by your campus Dyslexia Support Teacher.

Kinder - 8th - Remote dyslexia instruction will be delivered through live, interactive group sessions through Google Meet. The curriculum and lessons will mirror on-campus instruction. Student manipulative kits will be sent home and session meeting times will be assigned by the campus Dyslexia Support Teacher.

9th - 12th - Remote dyslexia instruction will be delivered through the intervention platform, Read 180. The curriculum will mirror on-campus instruction. Program usage and progress will be monitored closely by the campus Dyslexia Support Teacher. Virtual support will be provided according to your child's needs.

Within the first two weeks of school the campus Dyslexia Support Teacher will:

- (K-8) Schedule a time to conduct one-on-one baseline data collections via Google Meet.
(9-12) Baseline data collection will occur within the intervention platform.
- Schedule a time for the parent to pick up the student's manipulative kit.
- Schedule a time for your child's daily dyslexia intervention group sessions.
- Initial intervention sessions will focus on procedures, handling of the manipulatives, and becoming comfortable with the online format.
